

NISHIT SINGH

Developer

📞 8510948850 @ choudharynishit08@gmail.com 🔗 www.linkedin.com/in/nishit-singh08 📍 Ghaziabad, UttarPradesh, India

SUMMARY

I am an innovative and results-oriented Developer with expertise in React.js, SwiftUI, Node.js, and AI/ML technologies. I craft seamless, high-performance applications that enhance user experience and intelligent automation. With a strong background in scalable application development, I am well-equipped to integrate AI and image recognition for smart automation and am currently pursuing my MCA with a specialization in AI

EXPERIENCE

Web Developer (Intern)

JEFFA Industry

A development company focused on building modern web applications

- Developed and optimized full-stack website using React.js, CSS, JavaScript, Node.js
- Implemented Frontend and Backend Logic

Freelance Developer & Coding Experience

Freelance Developer

Independent projects focusing on client software needs

- Developed service-based website and iOS Fitness App for client projects
- Specialized in integrating AI/ML in iOS software solutions

Java Full Stack Developer (Intern)

CETPA Infotech

A tech training institute that provides projects and internships

- Developed and optimized full-stack applications using Java, MySQL, HTML, CSS, and JavaScript
- Implemented backend logic and database management for company software solutions
- Built interactive front-end interfaces, ensuring seamless user experience

EDUCATION

Master of Computer Application (MCA)

Bennett University

Bachelor of Computer Application (BCA)

Chaudhary Charan Singh University

CERTIFICATIONS

Java Full Stack Training Certificate

Java Project Certification

Generative AI for Data Analysts

STRENGTHS

Technical Strengths

Strong capability in leveraging modern technologies for application development

Soft Skills

Effective communication and collaboration in team settings

Professional Attributes

Proficient in problem-solving and time management

SKILLS

React	SwiftUI	Node.js	CSS
JavaScript	Apple iOS	Java	
HTML	MongoDB	Swift	Xcode
Google Firebase	Responsive Web		
Bootstrap	EDA	REST	NoSQL
Git	GitHub		

PROJECTS

AI Document System (RAG Based)

An innovative AI system for document Q&A using RAG

- Built a full-stack AI document question-answering system that allows users to upload PDFs and receive answers strictly from document content
- Implemented PDF text extraction, chunking, and MongoDB-based sentence retrieval
- Integrated a local Large Language Model (LLM) using Ollama for human-readable responses

iOS Fitness App

A fitness tracking app utilizing image recognition

- Developed an AI-based fitness app to help users track calorie intake and workout progress
- Identified gym equipment and fruits/vegetables using image recognition

CERTIFICATIONS

Introduction to Modern Database Systems

Exploratory Data Analysis for Machine Learning

Generative AI: Prompt Engineering Basics

PROJECTS

Service-Based Website

A comprehensive service booking platform

- Developed a service-based salon platform with user, employee, and admin portals
 - Implemented real-time features using Firebase for employee safety
-

Tic Tac Toe Game

A recreational iOS game application

- Designed and developed a classic Tic Tac Toe game using SwiftUI
-

Employee Management System

A system for employee management

- Created a full-stack application for managing employees, tracking attendance and salary automation
